

# PARAFFIN REMOVAL AND CONTROL

WITH

***ANALYTICAL PIPELINE SOLUTIONS LLC***

ADVANCED CHEMICAL TECHNOLOGY

*Analytical  
Pipeline  
Solutions, L.L.C.*

The logo for Analytical Pipeline Solutions, L.L.C. features a stylized globe with a grid of latitude and longitude lines. The globe is colored with a gradient from yellow at the top to red at the bottom. The text "Analytical Pipeline Solutions, L.L.C." is written in a black, italicized serif font, positioned to the left of the globe.

# Paraffin restricting flow; we can help!!

- This is a 6" flow-line from a well-head.
- Producer was Continuously injecting chemical from one of the Major Chemical Co. to prevent paraffin deposition.
- As you can see, it wasn't working

Brand X chemical injected into pipeline to remove paraffin

Brand X chemical Yielded minimal paraffin removal
